

Sandalwood Goat Milk Soap

Price: \$6.00

Short Description

A sweet woody smell. Calming and relaxing. Healing and moisturizing to the skin.

Description

According to Dr. Mercola's website, Sandalwood oil is well-regarded in skincare, as it tones and relieves itching, inflammation and dehydrated skin. Rashes, scar tissue, eczema, psoriasis, acne and dandruff are just some of the issues it can assist with. At present, sandalwood oil is widely utilized for its calming and relaxing effects. It can be used for alleviating depression, daily stress and anxiety. In India, the essential oil of sandalwood is used in the treatment of inflammatory and eruptive skin diseases. Our customers, both male and female report that it is a mentally soothing scent without loss of alertness.
