

All Natural Udder Crème

Price: \$10.00

Short Description

This is our extreme lotion that was developed to soothe and heal chapped udders on our goats.

Description

This is our extreme lotion that was developed to soothe and heal chapped udders on our goats. We hand massage it onto their skin and what we found was that our hands loved it! The peppermint really did stimulate circulation and eased arthritis making the chore of milking far more pleasant for both the goats and the people! It is our unique lotion recipe with a generous amount of Tea Tree, Peppermint and Lavender Essential Oils. Our customers love the natural scent and how great it is for their skin. They usually purchase two bottles... one for self... one for goats.

8-ounce Hand and Body Lotion
